

Preparing for College

Our Seniors hit the ground running, working on their College Applications this semester. I am happy to report that we already have 16 seniors who have been accepted to 20 Colleges around the state! This is a great way to kick off the Arkansas College Application Campaign (ACAC) in October! For the ACAC month kick off we asked some seniors and staff of #WhyApply. Look for more #'s and events in October for ACAC month!

RHS Job Shadow / Industry Tour Program

11th and 12th grade students at Rivercrest had the opportunity to apply for Job Shadow and Industry Tour opportunities this year. After all the applications were complete, 28 students will get the opportunity to shadow or take a tour of in a variety of fields. These fields include manufacturing, steel, medical professions, finance, engineering, welding, and more. Be on the lookout on social media for updates on how these experiences went for the students.

ANC Early College Program

Concurrent credit classes offered through ANC's Early College and Nucor Diploma Squared Programs are off to a great start this year. This semester we have a record number of 56 students working towards earning 279 college credits! For more information on these programs please talk to your career coach.

JAG and Career Coach Partnership

The partnership between the Rivercrest JAG and Career Coach programs picked up where it left off last school year. We toured American Greetings so the students could learn more about manufacturing, and what soft skills students need to be successful in the workforce. Keep your eye out for more activities from this group throughout the school year.
